

YASH PARASHAR

Bengaluru, Karnataka | +91 6206441515 | yashparashar.211@gmail.com | LinkedIn | GitHub

Professional Summary

Software Engineer and 2025 Computer Science graduate with experience in **Java, Spring Boot, RESTful APIs, and full-stack development**. Skilled in building **backend services** and **scalable web applications**, **debugging enterprise Java systems**, and **performing root cause analysis**. Strong foundation in **Data Structures and Algorithms, Object-Oriented Programming (OOP), SDLC, MVC Architecture**, and **clean, maintainable code**.

Technical Skills

- **Programming Languages:** Java (Java SE), JavaScript, Python, SQL
- **Web Technologies:** HTML, CSS, React, Spring Boot, RESTful APIs, JDBC, JWT Authentication
- **Frameworks & Tools:** Git, GitHub, Maven, Postman, MySQL, PostgreSQL
- **Core Computer Science:** Data Structures and Algorithms, OOP, SDLC, MVC Architecture
- **Software Engineering:** Debugging, Unit testing, API Integration, Root Cause Analysis

Professional Experience

Associate Software Engineer — *Unisys, Bengaluru* | **June 2025 – June 2026**

- Analyzed and resolved issues in **Java-based applications and REST APIs**, performing **debugging and root cause analysis (RCA)** to improve software reliability.
- Investigated **backend services and application workflows** to identify technical issues and support effective defect resolution.
- Collaborated with cross-functional teams to troubleshoot **backend services, system configuration, and application access** in enterprise environments.

Full-Stack Development Intern — *Corizo, Bengaluru* | **Sep 2024 – Jan 2025**

- Developed and enhanced **3+ web applications** using **Java SE, Spring Boot, and React**.
- Implemented backend functionality using **OOP principles** and clean coding standards.
- Built and consumed **RESTful APIs** for seamless frontend-backend integration.

Projects

Grocery Store Web Application — *Java, Spring Boot, React, MySQL*

- Developed a **full-stack web application** enabling product browsing and order placement.
- Implemented **Java-based business logic** and **REST API** integration while following **SDLC** and clean coding practices.

Employee Management System — *Java, Spring Boot, React, MySQL*

- Developed a full-stack employee management application using **Spring Boot, React, MySQL, and RESTful APIs**.
- Implemented Spring Security, JWT authentication, JPA/Hibernate for database persistence.

Real-Time Face Emotion Prediction System — *Python, JavaScript*

- Designed a **real-time facial emotion prediction** system using **machine learning** concepts for **live video-based facial analysis**.
- Integrated **prediction processing** with interactive frontend component to display real-time results.

Education

Bachelor of Engineering – Computer Science

East West Institute of Technology, Bengaluru | **2021 – 2025** | **CGPA: 7.76**
